Open Letter from Admiral Robert Kelly to Military Families

To my fellow military families:

Thank all of you for your contributions to this great nation. Your willingness to serve and sacrifice at home and abroad yesterday, today, and tomorrow is inspirational. Our country is now in trouble. We need to send the right people to Washington in these troubled times. I have seen legislators come and go in my 36 years on active duty. I have had several years of watching Matt Gaetz in action and am convinced he is the right man to represent this district that is very heavily populated with veterans. I ask you to join me in supporting Conservative Republican Matt Gaetz for Congress.

Many politicians in Washington have let us down. You have been patriots while they have doubled our national debt, ignored the rule of law, compromised national security and abandoned our veterans.

Matt Gaetz has a proven record putting military families first. As a member of the Florida House of Representatives, he personally led successful efforts to:

- Fund rehabilitative health care for veterans in Northwest Florida at the highest amount in Florida history;
- Fund accessible housing for wounded veterans at the highest amount in Florida history;
- Provide skills training for veterans;
- Cut red tape for military families transferring professional licenses; and
- Extend personal identity protections afforded to law enforcement to military families.

Matt Gaetz is one of the top pro-military members of the Florida Legislature. Matt will be a champion for military families in Congress. I hope you will join me in voting for him in the Republican Primary.

Sincerely,

Robert J. Kelly
Admiral USN (ret.)
